

Dear sir/maddam,I strongly support xmradio and all of its available programs. Personally for me there is no variety of music in the are where I live. Xm radio allows me to enjoy the multicultural styles of music that cannot be found even in the best metropolitan areas. The best feature is I do not have to listen to the anoying commercials and rambeling DJ,s on mainstream radio. The weather and traffic stations have provided me with up to date information anytime I need it. I believe it would be unconstitutional to disrupt the excellent programs provided by xm radio.

Thank you,
xm supporter
Eric Makvandi, M.D.
